

Ecoflex® Pre-insulated
Pipe System

Eliminate Ice Buildup Forever!

Uponor's customized hydronic radiant heating system actively and efficiently keeps ice from forming in the mine portal.

- Hydronic-based system flows warm water through flexible, durable crosslinked polyethylene (PEX-a) tubing
- Pre-insulated Ecoflex® pipes increase energy efficiency of system
- Compatible with various heat sources, including high-efficiency boilers, solar and geothermal
- Provides safety for workers
- Customized to meet any application

Wirsbo hePEX™ Tubing

To learn more about Uponor hydronic radiant heating for ice melting applications, visit www.uponorpro.com/snowmelt.

Uponor's Ecoflex pre-insulated pipe
supplies warm water from a remote heat source
to **distribute** to the **Wirsbo hePEX radiant tubing**
for ice melting.
