

Uponor

Pre-insulated AquaPEX[®] Tubing

All the benefits of Uponor AquaPEX[®] with a layer of PEX-foam insulation to help meet national, state, provincial and local energy-code requirements

Pre-insulated AquaPEX Tubing

- Saves on install time over installing the insulation as a secondary step
- Available in ½", ¾", 1", 1¼", 1½" and 2" tubing sizes with ½" insulation
- Eliminates open seams in insulation (which are prevalent when insulation is installed as the second step)
- Flexible, durable, corrosion-resistant
- Uses proven ProPEX® fitting technology

R-value and Heat-loss Chart

Tubing Size	½" Insulation	
	R-value	Heat Loss
½"	3.3	8.9 Btu/hr/ft at 70°F ΔT
¾"	3.1	11.1 Btu/hr/ft at 70°F ΔT
1"	3.0	13.1 Btu/hr/ft at 70°F ΔT
1¼"	2.9	15.2 Btu/hr/ft at 70°F ΔT
1½"	2.8	17.1 Btu/hr/ft at 70°F ΔT
2"	2.7	21.0 Btu/hr/ft at 70°F ΔT
