

Uponor

Uponor Lead-free Systems

Your residential plumbing solution

A complete lead-free system from
the inlet to the faucet

Uponor now offers a complete line of lead-free brass transition fittings and valves that carry the NSF us-pw-G marking for lead-free compliance to meet California lead-free legislation and exceed the U.S. Safe Drinking Water Act. Now you can combine our lead-free brass fittings with our extensive engineered plastic (EP) offering and innovative ProPEX® Out-of-the-Wall Support System for a complete lead-free solution from the inlet to the faucet.

Features and Benefits

- Complete line of lead-free brass transition fittings and valves
- Carry the NSF us-pw-G marking for lead-free compliance
- Meets California lead-free legislation and exceeds the U.S. Safe Drinking Water Act
- Feature Uponor's unique ProPEX fitting system for strong, secure connections without the need for torches, glues, solvents or gauges
