

TruFLOW™ Manifold

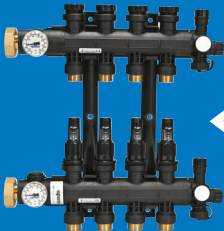

Highest Performance,
Versatile Manifold

Stainless-steel Manifold

Cost-effective,
Pre-assembled
Metal Alternative

Engineered Polymer (EP) Manifold

Modular,
Sweat-resistant
EP Materials

uponor

Radiant Heating and Cooling Manifolds

A comprehensive
offering to meet any
radiant application

	TruFLOW™ Manifold	Stainless-steel Manifold	Engineered Polymer (EP) Manifold
Features	Highest Quality, Versatile Manifold	Cost-effective, Pre-assembled Metal Alternative	Modular, Sweat-resistant EP Materials
Manifold Offering	1" and 1¼"	1" and 1¼"	1"
Balancing and Isolation Valves			
Flow Meters	Optional		
Ball Valves	Optional		Optional
Temperature Gauges			
Pre-assembled			
Modular and Expandable Design			
Manifold Supply/Return Connection	R32	NPT	R32
Listed to NSF-rfh			
Maximum Temperature/Pressure	194°F (90°C) at 145 psi	194°F (90°C) at 44 psi	194°F (90°C) at 44 psi
