**2" ENGINEERED
POLYMER (EP)
MULTIPOINT TEE**

SELL SHEET

2" EP Multiport Tee

2" Engineered Polymer (EP) Multiport Tee for Commercial Plumbing Applications

5 connections, 10½" long

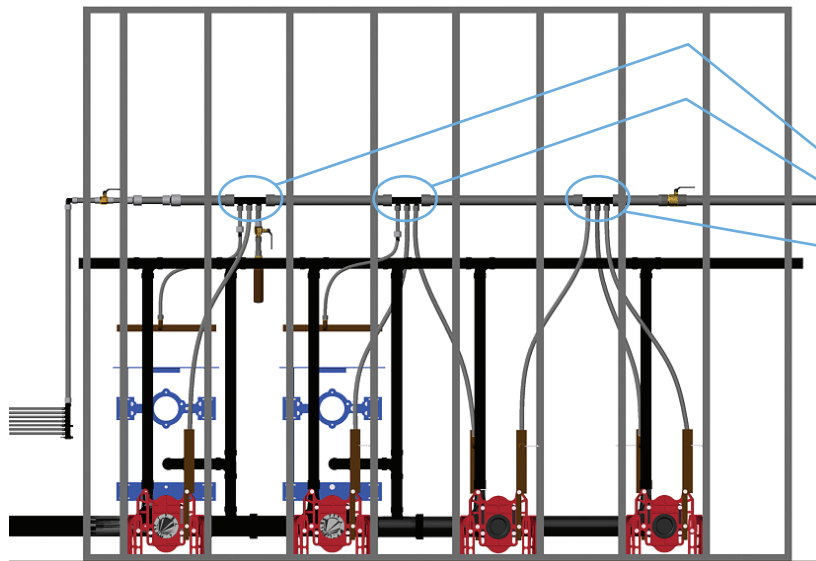

Reduces connections by 45%
Reduces required length by 63%

9 connections, 28" long

Public Restroom Application

Targeted for commercial restrooms, Uponor's 2" EP Multiport Tee features 2" inlets with three 1" outlets to improve the efficiency of flush bank installations — requiring fewer fittings and connections, providing greater material and labor savings and allowing for greater flexibility in design and installation.

- One EP multiport tee does the same job as three EP reducing tees with fewer connections
- Fewer connections = fewer potential leak points for reduced liability
- Increases installation efficiency
- Reduces material costs
- Provides greater design flexibility
- Supports an Uponor Logic layout

Uponor's 2" EP Multiport Tee centralizes connections and supply lines for greater design flexibility and installation efficiency.
