SELL SHEET

High-flow Engineered Polymer (EP) Multi-port Tees

for Commercial Plumbing Applications

Targeted for commercial installations where supply lines are required to be upsized due to pressure or code requirements, Uponor's two new high-flow EP Multi-port Tees feature 1 1/4" inlets with three 3/4" outlets — requiring fewer fittings and connections, providing greater material and labor savings and allowing for greater flexibility in design and installation.

Q2231375

- One EP Multi-port Tee does the same job as three separate fittings with fewer connections
- Fewer connections = fewer potential leak points for reduced liability
- Increases installation efficiency
- Reduces material costs
- Provides greater design flexibility
- Supports an Uponor Logic layout

Part No.	Part Description
Q2231373	EP Flow-through Multi-port Tee, 3 (3/4") outlets, 1 1/4" x 1 1/4" ProPEX
Q2231375	1 1/4" EP Branch Multi-port Tee, 3 (3/4") outlets
