

# Re-engineered valves. Greater value.

Uponor is continuing to bring innovation, confidence, value and performance to PEX piping systems with the launch of its new re-engineered ProPEX® lead-free (LF) brass valves for residential plumbing applications.

## Key benefits

- Re-engineered to offer the maximum amount of flow with a more compact design for greater installation efficiencies and higher performance
- Only leading valves on the market to meet building codes IPC, UPC and IRC as well as being listed to NSF 14, NSF 61, NSF 359 and NSF 372 for superior confidence in a product that is code-compliant and listed for all plumbing installations
- Developed by an established valve manufacturer with more than 35 years of experience for added assurance
- Constructed from high-quality ECO BRASS® lead-free brass for increased value
- Features positive tube stops for consistent installations every time
- New, longer 10-year warranty for enhanced peace of mind
